

DURABLE, EASY-TO-USE STUDENT NOTEBOOKS

LTE- Embedded Maestro Notebook

Kajeet has partnered with Evolve III to bring you a **Maestro notebook with built-in LTE capabilities**. That means that no matter where your students are, they will be able to access the Internet. Plus, with Kajeet you get access to the Sentinel® portal to **manage your devices and data**, **CIPA-compliant filters** to keep students safe and on-task, and **flexible data plans** to best meet the needs of your students, teachers, and communities.

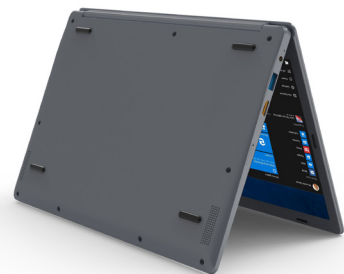

A FAST AND RELIABLE DEVICE FOR STUDENTS:

- Up to 8 hours of battery life
- Intel® fast quad-core processor
- Internal storage capacity of 64GB
- Windows 10 with Windows Hello and Cortana

A COMPLETE SOLUTION DESIGNED FOR EDUCATORS:

- Choice of GBs of data per device, per month all shared across devices
- Wireless connectivity on all the major North American networks
- CIPA-compliant filters
- Sentinel® portal to manage filters, time-of-day controls, and data allocations
- Fully kitted and activated devices for an easy launch
