

Multiple Students.
One Connection.
Faster Speeds.

Kajeet HomeWireless™

Connect multiple student devices to a faster and more powerful Internet with Kajeet HomeWireless.

Kajeet's HomeWireless kit offers school districts everything they need to deliver safe, secure, and CIPA-compliant access to internet-based learning resources in multi-student homes or other facilities that need to provide a **one-to-many fixed connectivity** solution.

The Kajeet HomeWireless kit comes with Sentinel, our patented, cloud-based data and device management platform that enables administrators to track program success and control website access, data allocations, and more – all from an easy user interface.

The Kajeet HomeWireless Kit comes with:

- Orbi LBR20 Router Powered by Kajeet
- Kajeet Home Unlimited Plan
- Kajeet Sentinel – Our Device and Data Management Platform with CIPA-Compliant Filtering
